**THE INDIAN ARCHIVES
(1947-85)**

A CLASSIFIED LIST OF ARTICLES

**NATIONAL ARCHIVES OF INDIA
NEW DELHI**

Preface

The Indian Archives is being published by the National Archives of India since 1947. 34 volumes running into 60 issues have been brought out so far. The articles etc. for the various issues penned down by eminent Records Managers, Archivists, Conservation and reprographic specialists historians etc. are being frequently consulted. The trainees of the School of Archival Studies have as well found them very useful and have often been consulting them for their supplementary reading and much benefit is derived by them through its perusal. However, in the absence of an up to date finding aid the scholars as well as trainees feel some what handicapped in locating and finding out the material, which they want to consult.

Though a classified list of articles did appear in the Indian Archives in the issue of July-December 1969, it has now become completely out of date and does not serve any useful purpose. That is why there is a need to bring out an up to date list of articles for the facility of those who want to consult them. In this compilation the articles have been appropriately grouped and arranged chronologically under suitable headings, which have been well thought out and in most cases correspond to the important aspects of Archival Studies.

This brochure has been compiled by Shri I.N. Verma, Fellow in the School of Archival Studies and it is hoped that this would prove a convenient aid to the archivists and others in finding out at a glance the titles contained in the volumes of the Indian Archives brought out so far.

R.K. Perti
Director
National Archives of India
New Delhi.
